❖ **Principle:**

- ✚ City water supply to machine directly, it will come to Raw cartridge filter 1, almost impurities of big particles will be keep here, then to Carbon activated cartridge filter 2, keep small particles, Clo, Chemical pollution, smell pollution (COD)... Anthracite Filter Cartridge will keep metal ion. Then water continues to go to Reverse Osmotic Unit, to eliminate smell, color, ion again...you will get clean water directly, however one more small fine filter cartridge unit will be erected at final position of discharge to make water sweeter and softer, this water is no need to boil water before using, you use directly to cooking and drinking.
- ✚ If you want to use big quantity of water, should install one more SS storage tank 100L on top with discharge faucet, machine running continuously supplies clean water to storage tank, and one water level switch support will stop machine when tank is full, and automatically operate system when tank is empty.

❖ **Features:**

- ✚ Connect directly machine to City supply water source.
- ✚ Saving power, supply big quantity of water.
- ✚ Design good model, luxury, suitable for each family, office, building, school, hospital.
- ✚ Maintenance of machine is easy, there are spare part for stock
- ✚ Dimensions: 800W x 800D x 1700H.
- ✚ Power required: 220V/50Hz.
- ✚ Water pump: 24/48V

❖ **Spare Parts:**

- ✚ UV light to eliminate bacteria

✚ **Housing**
